

Jason is one of the UK's leading Educational Consultants, and it's easy to understand why. His **humour, positivity** and **belief** in young people and teachers are infectious. Combine this with his **expansive understanding** of what **makes people tick** and **practical strategies** based on years of experience, and what you've got is a teaching superstar. (Albeit a very down to earth one).

Jason is renowned as a '**behaviour for learning trainer**'. This is not just about tackling bad behaviour, but how to get **great behaviour** to become the **norm**. Great behaviour means engaged in learning, actively seeking knowledge, understanding and skills. That's why Jason's training encompasses changing attitudes as well as 'tackling' bad behaviour.

Practical strategies and **effective interventions** are combined with fascinating insights into how the **brain works**, the **motives** behind good and bad behaviour, and why the strategies suggested are effective. You will also learn what **common practice to avoid**...and why.

Jason's unique approach can make even the most **nervous teacher** feel **confident** in their ability to secure the behaviour they want. He is committed to supporting **senior leaders** to do the same, and also offers a highly effective programme for **coaching and mentoring**.

Jason has extensive experience of teaching challenging pupils at challenging schools in challenging areas as successful classroom teacher and senior manager in Secondary education. He continues to practice what he preaches and is an active classroom practitioner. Training experience includes HM Prisons for Juveniles, Young Offenders and adults.

"Excellent. All schools need a day with Jason." Headteacher, NAHT Yorkshire 2012

"High standard of performance & presentation. Logical route from symptoms to causes to solutions." Headteacher, NAHT Yorkshire 2012
